"Charlie, why must I fill out this ACTION SHEET?"

Why can't you tell me your best price NOW?"

No two Mags EVER leave our factory set up the same way. EVERY Mag is custom built to order. Figuring out EVERY setup allows us to give you top performance at LOWEST COST.

FOR EXAMPLE – if you have only occasional backhoe needs, we may suggest our lower priced D1065 Backhoe instead of our heavy-duty D108 Backhoe. That saves you \$2,626!

GETTING A PRICE QUOTE GUARANTEES YOU...

- BEST DEAL of 2009.
- TIME to think because it locks in the price.
- EXACT PRICING right to the penny.
- TOOL to use if you're shopping for financing

WHY REQUEST A PRICE QUOTE? And why request one EARLY?

Getting a nuts-and-bolts price quote gives you important info you'll want as you decide which Magnatrac is right for you.

Here's how you benefit:

1. **You freeze the current offer.** You take the pressure off yourself and protect yourself against the upcoming price rise.
2. **You get to-the-penny prices on YOUR Magnatrac.** ONLY a quote can give you a complete, final price down to the proper accessories and shipping costs.
3. **You get a tool to find the best bank rate.** If you're financing your Magnatrac, the lender will want "the deal" in writing. A quote gives them what they need and gives YOU a tool to shop for the best loan rate.
4. **You give us a chance to "sharpen our pencil."** We can often give customers better solutions than they've asked for...for less money than they anticipated.
5. **You pay NOTHING for your quote and are under NO OBLIGATION.** We provide quotes as a free service for customers. All we ask is that you're serious since we put considerable effort into each quote.

WHY REQUEST A QUOTE EARLY?

6. **EARLY QUOTE AVOIDS SHIPPING DELAYS.** We build only so many Magnatracs a week and there's usually a waiting list. Asking for a quote EARLY puts you ahead of others and gets you fastest possible delivery should you decide to order.
